Professional Summary

Motivated and strategic Business Administration and Digital Marketing graduate from Khwarizmi University Technical College (Jordan). Currently leading Business Development and Marketing at HexoVerse, an emerging tech startup delivering smart digital platforms and SaaS solutions. Experienced in venture building, opportunity discovery, market validation, and structuring sustainable business models. Dedicated to connecting innovative technology with real-world problems, with extensive focus on municipal and institutional partnerships (B2G, B2B, B2C), commercial pitch decks, and driving scalable growth for flagship initiatives including Rawaa (smart water management), Namou (AI ad tool for SMEs), and Fath (interactive edutainment).

Professional Experience

Business Development & Marketing Lead2024 – Present

HexoVerse

- Lead marketing initiatives and commercial planning for HexoVerse’s emerging tech solutions (Rawaa, Namou, Fath)
- Prepare comprehensive pitch decks, institutional proposals, and presentation materials tailored for upcoming meetings with the Ministry of National Economy, municipal councils, and institutional partners
- Conduct target market research, competitive benchmarking, and pricing analyses to support product-market fit
- Plan and execute digital marketing campaigns across Meta platforms (Facebook and Instagram) to generate initial traction and brand awareness for product launches
- Collaborate closely with technical and product development teams to translate user feedback and market requirements into actionable feature roadmaps
- Draft sponsorship packages, partnership frameworks, and client onboarding materials for local business communities and educational partners

Digital Marketing & Business Specialist (Practical Trainee)2023 – 2024

Academic & Field Projects

- Developed complete digital marketing strategies and ad campaigns during capstone and commercial coursework
- Managed small-scale paid advertising campaigns, testing audience segmentation, ad creatives, and copywriting
- Prepared commercial feasibility studies for digital startups, focusing on revenue forecasting and unit economics
- Built and analyzed social media content schedules and performance metrics using Meta Business Suite and Google Analytics

Key Products & Managed Initiatives (HexoVerse)

Rawaa – Smart Water Distribution & IoT Platform

An integrated smart water management solution combining IoT hardware with a cloud dashboard and mobile app to assist municipalities in monitoring distribution and reducing water loss.

- **Commercial & Market Leadership:** Guiding Rawaa from a business and market perspective toward institutional adoption and municipal scaling; assessing municipal needs, authoring commercial proposals, and cultivating institutional partnerships
- **Impact Data Analysis:** Documented field test metrics showing up to 30% reduction in water losses and significant decreases in resident inquiries
- **Monetization Modeling:** Formulated tiered pricing models for municipal SaaS subscriptions and hardware sensor packages
- **Institutional Readiness:** Developed promotional decks and executive summaries for municipal councils and utility authorities

Namou – AI-Powered Marketing Assistant for SMEs

A conversational platform built on Telegram designed to help home-based businesses and micro-sellers create ad copy and social media visuals in minutes.

- **Market Research:** Analyzed the pain points of over 100+ local micro-businesses regarding advertising costs and lack of design resources
- **Go-to-Market Strategy:** Defined the early adopter outreach strategy targeting home stores and small businesses in Palestine and Jordan
- **Commercial Preparation:** Designed subscription pricing tiers and partnership proposals targeted for local entrepreneurial incubators and business networks

Fath – Interactive Edutainment Platform

A gamified educational competition platform connecting interactive hardware buzzer tables with digital quiz applications for schools and universities.

- **Sponsorship Decks:** Authored multi-tier corporate sponsorship proposals tailored for private sector sponsors and institutional partners
- **Event Promotion:** Coordinated digital media promotions and social coverage across TikTok and Instagram for interactive quiz competitions
- **Institutional Outreach Plan:** Formulated introductory decks for educational institutions and community centers
